ABOUT ME

Undergraduate Software Engineering student at the Sabaragamuwa University of Sri Lanka passionate about **UI/UX Design** and creating user-friendly digital experiences. Skilled in **Figma, wireframing, prototyping**, responsive design, and usability, with 3 years of academic and practical experience designing modern web and mobile interfaces. Contributed to 5+ real-world projects, focusing on clean, intuitive, and visually engaging user experiences.

PROJECTS

► Briefly AI – AI-Powered Chrome Extension — Completed

Built an AI-driven Chrome extension capable of generating instant summaries for articles and web pages in under **5** seconds, helping users process information **2x** faster.

- **Technologies:** HTML5, CSS3, Vanilla JavaScript, Google Gemini API
- **Figma:**  • **GitHub:** 

► DevKeys – An AI-powered developer shortcuts and commands hub — Completed

Built a productivity-focused developer tool that organized **100+** programming shortcuts and commands into a single searchable interface, reducing lookup time by **60%**.

- **Technologies:** Next.js, Tailwind CSS, Gemini API, Firebase, Firebase Firestore, Vercel
-  - www.devkeys.dev • **Figma:**  • **GitHub:** 

► NOIR – Smart Salon Appointment Booking System — Completed

Noir Salon is a premium modern salon and grooming website. The platform delivers a sleek monochrome aesthetic with smooth animations, elegant layouts, and a luxury-focused user experience designed to strengthen the brand’s online presence.

- **Technologies:** React.js, Tailwind CSS, Framer Motion, Firebase, Firebase Firestore, Vercel
-  - www.noir.lk • **Figma:**  • **GitHub:** 

► LifeFlow – AI-powered personal productivity dashboard — Ongoing

AI-powered personal productivity dashboard built with React.js and Next.js featuring task management, smart notes, calendar planning, productivity analytics, Pomodoro focus mode, and AI chatbot integration.

- **Technologies:** Next.js, REST API, Tailwind CSS, Framer Motion, Firebase, Express.js, Vercel
-  - www.lifeflow.dev • **Figma:**  • **GitHub:** 

UI/UX DESIGN PROJECTS

- Smart Salon Appointment Booking System Web UI  — [Prototype](#)
- Real-Time Messaging Dashboard UI (Dark, Light & Glassmorphism)  — [Prototype](#)
- Smart Home Automation Dashboard UI (Dark, Light & Glassmorphism)  — [Prototype](#)
- AI-powered personal productivity dashboard  — [Prototype](#)
- Luxury Commerce Experience Platform  — [Prototype](#)

Design Work

- Before & After Designs — [Prototype](#)
- Next-Generation Iconography — [Prototype](#)
- UI/UX Design Evolution for the Next Decade — [Prototype](#)

EDUCATION

- **BSc. Honours Degree in Software Engineering** 2023 – Present
Sabaragamuwa University of Sri Lanka
- **G.C.E ADVANCED LEVEL – PHYSICAL SCIENCE STREAM** 2021/2022
Successfully completed G.C.E Advanced Level in the Physical Science stream with an **A** grade in Combined Mathematics, a **B** grade in Chemistry, and a **C** grade in Physics, demonstrating strong analytical, problem-solving, and logical thinking abilities.

EXPERIENCE

► Advanced Full-Stack Development Program Apr 2025 – Aug 2025

Duration: 6 Months

Completed the Advanced Full-Stack Development Diploma at ACPT, gaining practical experience in modern backend and database technologies. Developed strong skills in Java, Spring Boot, Hibernate/JPA, and MySQL along with hands on knowledge of API development, authentication, and deployment. This program enhanced my ability to build scalable, secure, and production-ready full-stack applications.

► UI/UX Designer & Frontend Developer Intern Agu 2025 – Oct 2025

Duration: 3 Months

Responsibilities & Achievements:

- Designed responsive web and mobile application interfaces using Figma.
- Created wireframes, prototypes, and user-centered UI/UX designs.
- Developed frontend interfaces using React.js and Next.js

► Smart Blood Bank Management System — Uni Project(Ongoing)

Collaborated in a **4-member** team to develop a centralized blood bank management system for *Ratnapura General Hospital*, streamlining blood donor management, inventory tracking, and donation campaigns for improved operational efficiency.

- **Technologies:** Next.js, Node.js, Express.js, MySQL / Firebase, Firebase Auth/JWT and Google Gemini AI
- **Figma:** [Prototype](#) • **GitHub:** [GitHub Repo](#)

KEY SKILLS

- **Design Tools** — Figma, Adobe XD, Canva, Photoshop
- **UI/UX Design** — Wireframing, Prototyping, User Flow, Design Systems, Responsive Design
- **Frontend Understanding** — HTML, CSS, Tailwind CSS, React.js Basics
- **User Experience** — Usability Testing, Accessibility, User Research, Interaction Design
- **Other** — Team Collaboration, Design Thinking, Communication, Problem Solving

SOFT SKILLS

Creative and detail-oriented UI/UX Designer with strong problem-solving, teamwork, and communication skills. Quick learner with adaptability to modern design trends, focused on creating user-friendly, visually appealing, and intuitive digital experiences.
