ABOUT ME

Motivated and adaptable aspiring Software Engineer currently pursuing a Bachelor of Software Engineering at the Sabaragamuwa University of Sri Lanka, with **3 years** of academic and hands-on development experience in modern web and mobile technologies. Skilled in building scalable applications using **React.js, Next.js, React Native, Spring Boot**, and **Figma**, with experience deploying applications on **AWS** to improve performance and reliability. Developed and contributed to **5+** real-world projects, including AI-powered applications, productivity tools, and healthcare systems, focusing on user experience, scalability, and efficient system design. Passionate about leveraging emerging technologies to solve real-world problems and contribute effectively within collaborative development teams.

PROJECTS

► InterviewGenie – AI-Powered Mock Interview Web Application

— Uni Project

Worked as part of a **3-person** development team to design and develop a full-stack AI mock interview platform with dynamic question generation and live answer evaluation, achieving 95% positive user feedback during testing.

- **Technologies:** Next.js, Node.js, Express.js, PostgreSQL, Drizzle ORM, Clerk authentication, and Google Gemini AI

• **Live Demo** – [www.interviewgenie.ai](#)

• **Wireframe :** [Click Link](#)

• **GitHub :** [Click Link](#)

► CodeFlow AI – AI-Powered VS Code Extension

— Uni Project

Collaborated in a **3-member** team to design and develop an AI-powered Visual Studio Code extension that analyzed coding habits, productivity patterns, and developer activity, helping improve developer efficiency and well-being.

- **Technologies:** TypeScript, VS Code API, Chart.js, and lightweight AI frameworks

• **Live Demo** – You can search “CodeFlow AI” in VS Code extention

• **GitHub :** [Click Link](#)

► Briefly AI – AI-Powered Chrome Extension

— Completed

Built an AI-driven Chrome extension capable of generating instant summaries for articles and web pages in under **5** seconds, helping users process information **2x** faster.

- **Technologies:** HTML5, CSS3, Vanilla JavaScript, Google Gemini API

• **Live Demo** – [Briefly AI](#)

• **Figma :** [Click Link](#)

• **GitHub :** [Click Link](#)

► DevKeys – An AI-powered developer shortcuts and commands hub

— Completed

Built a productivity-focused developer tool that organized **100+** programming shortcuts and commands into a single searchable interface, reducing lookup time by **60%**.

- **Technologies:** Next.js, Tailwind CSS, Gemini API, Firebase, Firebase Firestore, Vercel

• **Live Demo** – [www.devkeys.dev](#)

UI/UX DESIGN PROJECTS

- Smart Salon Appointment Booking System Web UI

Completed

— [Figma link](#)
- Commercial Construction Website UI

Completed

— [Figma link](#)
- Real-Time Messaging Dashboard UI (Dark, Light & Glassmorphism)

Completed

— [Figma link](#)
- Smart Home Automation Dashboard UI (Dark, Light & Glassmorphism)

Completed

— [Figma link](#)
- Modern E-Commerce Web Platform

In Progress

— [Figma link](#)

Design Work

- Before & After Designs

— [Figma link](#)
- Next-Generation Iconography

— [Figma link](#)
- UI/UX Design Evolution for the Next Decade

— [Figma link](#)

EDUCATION

► G.C.E ADVANCED LEVEL – PHYSICAL SCIENCE STREAM	2021/2022
Combine Mathematics	A
Chemistry	B
Physics	C

EXPERIENCE

► Advanced Full-Stack Development Program

2025 (Apr) – 2025 (Agu)

ACPT

Duration: 6 Months

Completed the Advanced Full-Stack Development Diploma at ACPT, gaining practical experience in modern backend and database technologies. Developed strong skills in Java, Spring Boot, Hibernate/JPA, and MySQL along with hands on knowledge of API development, authentication, and deployment. This program enhanced my ability to build scalable, secure, and production-ready full-stack applications.

► UI/UX Designer & Frontend Developer Intern

2025 (Agu) – 2025 (Oct)

ZephyraTech

Duration: 3 Months

Responsibilities & Achievements:

- Designed responsive web and mobile application interfaces using Figma.
- Created wireframes, prototypes, and user-centered UI/UX designs.
- Developed frontend interfaces using React.js and Next.js

► Smart Blood Bank Management System

— Uni Project(On going)

Collaborated in a **4-member** team to develop a centralized blood bank management system for *Ratnapura General Hospital*, streamlining blood donor management, inventory tracking, and donation campaigns for improved operational efficiency.

- **Technologies:** Next.js, Node.js, Express.js, MySQL / Firebase, Firebase Auth/JWT and Google Gemini AI

• **Figma :** [Click Link](#)

• **GitHub :** [Click Link](#)

KEY SKILLS

- Languages

— Java, HTML, CSS, JavaScript, TypeScript,
- Frameworks & Libraries

— React, Next.Js, React Native, Node, Express, Tailwind CSS, Spring boot, Socket.io,
- Database

— MySQL, PostgreSQL, MongoDB
- Other

— MUI, Git/GitHub, AWS, jQuery, JWT, hibernate
