ABOUT ME

Motivated and creative aspiring **Frontend Developer** and **UI/UX Designer** currently pursuing a Bachelor of Software Engineering at the Sabaragamuwa University of Sri Lanka, with **3** years of academic and practical experience in designing and developing modern digital products. Skilled in creating responsive and user-centered interfaces using **React.js**, **Next.js**, **React Native**, **Tailwind CSS**, and **Figma**, with a strong focus on **usability**, **accessibility**, and **clean visual design**. Designed and contributed to **5+** real-world web and mobile projects, including AI-powered platforms, productivity tools, and healthcare systems, improving user experience and interface efficiency. Passionate about transforming ideas into intuitive, high-performance digital experiences while collaborating effectively within **development** and **design teams**.

PROJECTS

► Briefly AI – AI-Powered Chrome Extension

— Completed

Built an AI-driven Chrome extension capable of generating instant summaries for articles and web pages in under **5** seconds, helping users process information **2x** faster.

- **Technologies:** HTML5, CSS3, Vanilla JavaScript, Google Gemini API

• **Figma** : [Click Link](#)

• **GitHub** : [Click Link](#)

► DevKeys – An AI-powered developer shortcuts and commands hub

— Completed

Built a productivity-focused developer tool that organized **100+** programming shortcuts and commands into a single searchable interface, reducing lookup time by **60%**.

- **Technologies:** Next.js, Tailwind CSS, Gemini API, Firebase, Firebase Firestore, Vercel

• **Live Demo** – [www.devkeys.dev](#)

• **Figma** : [Click Link](#)

• **GitHub** : [Click Link](#)

► NOIR – Smart Salon Appointment Booking System

— Completed

Noir Salon is a premium modern salon and grooming website. The platform delivers a sleek monochrome aesthetic with smooth animations, elegant layouts, and a luxury-focused user experience designed to strengthen the brand’s online presence.

- **Technologies:** React.js, Tailwind CSS, Framer Motion, Firebase, Firebase Firestore, Vercel

• **Live Demo** – [www.noir.lk](#)

• **Figma** : [Click Link](#)

• **GitHub** : [Click Link](#)

► LifeFlow – AI-powered personal productivity dashboard

— Ongoing

AI-powered personal productivity dashboard built with React.js and Next.js featuring task management, smart notes, calendar planning, productivity analytics, Pomodoro focus mode, and AI chatbot integration.

- **Technologies:** Next.js, REST API, Tailwind CSS, Framer Motion, Firebase, Express.js, Vercel

Design Work

- Before & After Designs

— [Figma link](#)
- Next-Generation Iconography

— [Figma link](#)
- UI/UX Design Evolution for the Next Decade

— [Figma link](#)

EDUCATION

► G.C.E ADVANCED LEVEL – PHYSICAL SCIENCE STREAM		2021/2022
Combine Mathematics	A	
Chemistry	B	
Physics	C	

EXPERIENCE

- Advanced Full-Stack Development Program

2025 (**Apr**) – 2025 (**Agu**)

ACPT

Duration: 6 Months

Completed the Advanced Full-Stack Development Diploma at ACPT, gaining practical experience in modern backend and database technologies. Developed strong skills in Java, Spring Boot, Hibernate/JPA, and MySQL along with hands on knowledge of API development, authentication, and deployment. This program enhanced my ability to build scalable, secure, and production-ready full-stack applications.
- UI/UX Designer & Frontend Developer Intern

2025 (**Agu**) – 2025 (**Oct**)

ZephyraTech

Duration: 3 Months

Responsibilities & Achievements:

• Designed responsive web and mobile application interfaces using Figma.

• Created wireframes, prototypes, and user-centered UI/UX designs.

• Developed frontend interfaces using React.js and Next.js

► Smart Blood Bank Management System

— Uni Project(On going)

Collaborated in a **4-member** team to develop a centralized blood bank management system for *Ratnapura General Hospital*, streamlining blood donor management, inventory tracking, and donation campaigns for improved operational efficiency.

• **Technologies:** Next.js, Node.js, Express.js, MySQL / Firebase, Firebase Auth/JWT and Google Gemini AI

• **Figma** : [Click Link](#)

• **GitHub** : [Click Link](#)

KEY SKILLS

► Languages

— Java, HTML, CSS, JavaScript, TypeScript,

► Frameworks & Libraries

— React, Next.js, React Native, Node, Express, Tailwind CSS, Spring boot, Socket.io,

► Database

— MySQL, PostgreSQL, MongoDB

► Other

— MUI, Git/GitHub, AWS, jQuery, JWT, hibernate

SOFT SKILLS
